

MEHRDAD DABBAGH
Marina Del Rey, CA
Mehrdad.dabbagh@gmail.com

Mehrdad Dabbagh's unique career spans over 20 years of multi-disciplinary experiences in architectural design, construction, fabrication, project management, sales, marketing and branding. Drawing from such a broad set of experiences has enabled Mr Dabbagh to develop the vision, mission, and the brand strategy for innovative Green Technologies where he is currently recognized as a pioneer in the field.

As a second-generation builder, Mr Dabbagh developed a keen interest in sustainable design/build, environmentalism, love and respect for nature in an early age. This interest led him to later pursue a broad set of trainings in entrepreneurship, personal development, arts, and environmental issues. His academic education in the sciences and humanities – business, arts, and architecture, led him to Sci-Arc, an Avant-Garde school of Architecture known for its innovative approaches in Architectural education. He graduated in the top five percentile of his class.

Mr. Dabbagh holds a Master of Architecture from Southern California of Architecture (Sci-Arc) and a Bachelor of Arts from California State University Los Angeles where he was part of the winning team of an urban design competition.

Currently he is the interim executive at an avant-guard modular building green manufacturing company. Previously, he was the CEO of a Green technology material manufacturing company, where he originally joined as the Vice President of Business Development. In that position he averaged over \$15 million in annual sales. He is a LEED (Leadership in Energy and Environmental Design) accredited professional and active member of United States Green Building Council, Los Angeles chapter (USGBC). He is also an Associate Member of The American Institute of Architecture (AIA).
